**SUBJECT: Recommendation Letter for Cabibbo, Inc.**

To Whom It May Concern:

For the last five years, John Cabibbo has successfully completed both simple and complex projects for the Jāsos Group. He and his Team at Cabibbo, Inc. have not only successfully designed and hosted various websites for our businesses, but have also worked with us to complete a complicated one-of-a-kind web-based database/server project that is our backbone for our clients. We appreciate the fact that John is consistently one step ahead of us on our projects and can help us to push the technology envelope.

We have found John's Team to be a good judge of their capabilities, consistently accurate in the scope of projects, and timely in their execution. Most importantly, when doing projects that has never been done before, problems or needs often arise and Cabbibo, Inc. has supported us at every turn. Recently, John helped us to translate a proprietary program into a web-based one that combines SQL Server, Java, and Coldfusion to conduct complex calculations and provide data over a secure website. We believe that his broad expertise has made this possible for our company and to our client's delight.

Finally, we consider John and his Team at Cabibbo, Inc. an integral part of our company and enjoy well earned close working relationship with them. We highly recommend their services to anyone who values teamwork and professionalism, as well as good service. Please feel free to call us with any questions about our history with Cabibbo, Inc. at 407-833-8088 x112.

Respectfully,

Tim Lewis, R.Ph, C.Ph., MBA  
Managing Partner  
Jāsos Group, LLC

Terrance Moore, MBA  
Managing Partner  
Jāsos Group, LLC
